See also “Resources for Couples Preparing for Marriage” in the “Marriage Preparation” section of “Best Practices and Recommended Resources” at [www.marriagelovepower.net](http://www.marriagelovepower.net)

This annotated list of books includes some classics, as well as newer works based on more recent research and program development. Some address marriage in general, while others focus on specific marital issues. Even just reading these reviews will, I hope, provide marriage-strengthening information. Many of these would also work well as a resource for group study, including those marked with an asterisk to indicate that they include a study guide.

Unless otherwise indicated, these books are available through popular booksellers. An online search for a book title will help you learn where it is being sold. New or used copies, e-books, or audio editions of those indicated as out-of-print may still be obtained through online booksellers, or may be available at your local library or through inter-library loan.

These are books recommended and reviewed by United Methodists, not by any means a full list of all that are available. Please submit to me your reviews of other books you would like to be included in this list.

***How One of You Can Bring the Two of You Together: Breakthrough Strategies to Resolve Your Conflicts and Reignite Your Love***, by Susan Page (NY: Broadway Books, 1997). The author's insights and suggestions will help both those who feel stuck and frustrated with their relationships and those who, although happy and stable, feel some disillusionment or lack of connection. Page presents a series of "experiments" one person can use, based on 8 specific principles: 1) Act on your own. 2) Do the opposite of what you have been doing. 3) Reframe a power struggle. 4) Enlist your partner's help. 5) Express empathy for your partner's position. 6) Gracefully accept what you can't change. 7) Ask for what you want. 8) Men: tune in; Women: stop coaching. ***Love and Respect: The Love She Most Desires; The Respect He Desperately Needs***, by Emerson Eggerichs, (Colorado Springs: Integrity Publishers, 2004). Writing from a Christian perspective and frequently quoting Scripture, the author makes a clear case for the importance of honoring the primary needs of women and men. He identifies the "Crazy Cycle" (she reacts to a perceived lack of love and he reacts to a perceived lack of respect) and recommends clear steps to move toward closeness and a mutually satisfying relationship.

***Love for All Seasons: Eight Ways to Nurture Intimacy***, by John Trent, Ph.D. (Chicago: Moody Press, 1996). A study guide provides suggestions for self-assessment and discussion. [out of print]

***Love is Never Enough***, by Aaron T. Beck, M.D. (New York: Harper & Row, Publishers, 1988). The author explores how couples can avoid the misunderstandings and inaccurate interpretations of each other's behavior that lead to marital conflict. This book explains how "partners can learn to be more reasonable with each other by adopting a more humble, tentative attitude about the accuracy of their mind reading, and its resulting negative conclusions; by checking out the accuracy of their mind reading; and by considering alternative explanations for what a partner does." (p. 17)

***Love, Marriage, and Money: Understanding and Achieving Financial Compatibility Before-and After-You Say "I Do,"*** by Gail Liberman and Alan Lavine ((Lincoln, NE: iUniverse, Inc., 2005). Topics include financial personalities, how to compromise, renting or purchasing a home, planning for children, preparing for retirement, and estate planning.

***Love to Stay: Sex, Grace, and Commitment***, by Adam Hamilton (Nashville: Abingdon Press, 2013). Marriage "has its ups and downs, its ebb and flow, and it requires perseverance, hard work and from time to time a bit of help." That's how the author describes the reality of marriage in his new book, an effort to provide that "bit of help," practical advice and encouragement for married couples or for people contemplating marriage. He explores the little things (annoyances or habits) and the big things (emotional or physical abuse; addictions to drugs, alcohol or pornography; and infidelity) that can hurt marriages, offering strategies for dealing with them. Each chapter ends with discussion questions and valuable suggestions for couples, for individuals within a marriage, and for single people. He also draws on feedback and survey results from thousands of people to help illustrate some basic truths. He encourages people to take the long view and "do love until you *feel* love." When it is difficult to feel love, the trick is to hold on to the knowledge that it will get better and to avoid doing anything stupid in the meantime." (review by Sarah Lowther Hensley) For group use, you may also purchase a paperback Leader's Guide and a DVD containing six ten-minute video clips related to the book chapters and a downloadable leader's guide.

***Sacred Marriage: What if God Designed Marriage to Make Us Holy More Than to Make Us Happy?*** by Gary Thomas (Grand Rapids, MI: Zondervan Publishing House, 2000). The author invites readers to view marriage as a spiritual discipline through which persons can come to know God more fully and intimately. Marriage teaches us to love and to respect others, exposes our sin, and encourages us to develop perseverance, forgiveness, and the ability to embrace differences.

***Supercouple Syndrome: How Overworked Couples Can Beat Stress Together***, by Wayne M. Sotile and Mary O. Sotile, M.A. (New York: John Wiley & Sons, Inc., 1998). ***Surrendering to Marriage: Husbands, Wives, and Other Imperfections***, by Iris Krasnow (New York: Hyperion, 2001). The author cuts through the mythology and unrealistic expectations surrounding marriage to show readers that: “The best we can do for our children, and for ourselves, is to make our own marriages go the distance, weathering waves of sadness, even rage, because we know that our grit and perseverance are going to pay off hugely in the end.” She shares the testimony of senior citizens who say “they are more in love than ever with the partner they married a half-century ago. It is not a love of lust and infatuation. It is the deepest of love, built over time, through joy and tragedy.” (pages 5, 6)

***Sustaining Love: Healing and Growth in the Passages of Marriage***, by David Augsberger (Ventura, CA: Regal Books, 1988). The author outlines four stages of marriage: The Dream, The Disillusionment, The Discovery, and The Depth, describing how to successfully negotiate these challenging transitions. Especially dangerous, of course, is the Disillusionment Stage, when the excitement of new love wears off and couples face who they really are and how they really relate. Not only is this stage inevitable, but it can also provide a doorway to deeper discovery and depth in the relationship.

***The Case for Marriage: Why Married People are Happier, Healthier, and Better Off Financially***, by Linda J. Waite and Maggie Gallagher (New York: Doubleday, 2000). Research reveals that marriage brings greater happiness, health, earnings, sexual satisfaction, and many other positive benefits to couples who commit to it, as well as to their children. ***The Five Love Languages: The Secret to Love That Lasts***, by Gary Chapman (Chicago: Northfield Publishing, 2010). By learning to speak and understand these unique languages, persons can more effectively communicate love and feel more truly loved as well.

***The Five Secrets of Marriage from the Heart***, by Jack Rosenblum and Corinne Dugas (Mustang, OK: Tate Publishing, LLC, 2006) Through the engaging story of a couple whose marriage is in crisis, the authors explain and illustrate five keys to strengthening and/or healing a relationship. (**H**ear and understand me; **E**ven if you disagree, please don’t make me wrong; **A**cknowledge the greatness within me; **R**emember to look for my loving intentions; **T**ell me the truth with compassion.) This easy-to-read, well-grounded book would be an excellent gift for couples or a resource for a study group.

***The Good Couple Life: A 12-Month Guide to Enriching Your Marriage***, by Lynn Balster Lontos and Demetri Lontos (Winston-Salem, NC: Association for Couples in Marriage Enrichment, Inc., 1982). Each chapter explores a different topic in depth, providing sound advice, discussion questions, and exercises to help couples apply the principles to their own relationship. This would make a good study guide for individual couples or a group meeting regularly.

***The Heart of Commitment: Compelling Research that Reveals the Secrets of a Lifelong, Intimate Marriage***, by Scott Stanley, Ph.D. (Nashville: Thomas Nelson Publishers, 1998). Research shows that couples dedicated to each other and to their relationship are happier and enjoy a deeper relationship with each other. The author of this Scripturally-based book explores ways to preserve or restore commitment in a marriage.

***The Intimate Enemy: How to Fight Fair in Love and Marriage***, by George R. Back and Peter Wyden (New York: Avon Books, 1968). In this insightful classic, the authors describe how to avoid or stop “gunnysacking,” the practice of holding on to grievances instead of expressing them, which sabotages intimacy and creates distance in relationships.

***The Love Dare*** by Stephen Kendrick and Alan Kendrick (Nashville, TN: B&H Publishing Group, 2008). Featured in the movie *Fireproof*, this book offers forty days of faith-based relationship information and challenges to be used by a spouse hoping to improve his or her marriage.

***The Power of Commitment: A Guide to Active, Lifelong Love***, by Scott M. Stanley (San Francisco, CA: Jossey-Bass 2005). The author offers practical and spiritual guidance to help couples understand commitment, handle everyday pressures, deal with the pain of

disappointment and unfulfilled hopes, overcome extramarital attractions, and transform “me versus you” to “we” thinking in order to experience the joy of lifelong devotion and loyalty.

***The Secrets of Happily Married Men: Eight Ways to Win Your Wife’s Heart Forever***, by Scott Haltzman, M.D. with Theresa Foy Digeronimo (San Francisco, CA: Jossey-Bass, 2006). The author shows men how to use their natural masculine talents to enhance their marriages. The determination to do a job and to do it right (focusing, prioritizing, developing strategies, problem-solving, paying attention to details, negotiating and compromising, resolving conflict, working through step-by-step processes, and achieving goals) can be used to build a strong, healthy, and lasting marriage.

***The Seven Principles for Making Marriage Work***, by John M. Gottman, Ph.D. and Nan Silver. (New York: Crown Publishers, Inc., 1999). The authors offer information, exercises, and strategies for nurturing the deep friendship essential to strong, happy marriages.

***The Surprising Way to a Stronger Marriage: How the Power of One Changes Everything***, by Michael and Amy Smalley (Carol Stream, IL: Tyndale House Publishers, Inc., 2010). The authors describe how one spouse, strengthened by God and Biblical principles, can bring about positive change and growth in a marriage. The authors emphasize the importance of taking responsibility for your own emotions and reactions, focusing on what you want to have happen, and repairing hurts by asking your spouse what he/she needs in order to heal. A Study Guide in the back of the book provides scripture and discussion questions for each of the eighteen chapters.

***Unbreakable: Forging a Marriage of Contentment and Delight***, by Charles Causey and Tony Miltenberger (Nashville: Abingdon Press, 2014). This seven-session scripture-based interactive guide for couples or groups of couples who want to strengthen and deepen their marriage relationships is based on five core components of love (commitment, kindness, honesty, forgiveness, and sacrifice). The first session, focused on the importance and purpose of marriage, is followed by five sessions addressing each of the core components listed above and a final session focused on sexual intimacy. The readings and exercises help each person in the focus on and take responsibility for his or her own attitudes and behavior, while offering opportunity for the couple to share insights and reflections with each other. In the first session, the "Couple Interactive Exercise" directly teaches "The Responsibility Skill." The fourth session provides instruction and a framework for communicating more effectively, and the fifth session offers a clear outline of steps for practicing forgiveness. If a couple intends to write in the book, they will both need their own copy; or they could share one copy, each recording responses in a separate journal or on sheets of paper.

***Venus on Fire, Mars on Ice: Hormonal Balance-The Key to Life, Love, and Energy***, by John Gray, Ph.D., (Coquitlan, BC: Mind Publishing, Inc., 2010). The author discusses how hormonal differences affect male and female behaviors and reactions to stress. While men tend to withdraw under stress, women become more anxious and driven. Increased levels of testosterone reduce stress in men, while women’s stress is eased by increased levels of oxytocin. By understanding, accepting, and respecting these differences, couples can reduce tension and build more satisfying relationships.

***\*What Children Learn from Their Parents' Marriage: It May Be Your Marriage, but It's Your Child's Blueprint for Intimacy***, by Judith P. Siegel, Ph.D., C.S.W. (New York: HarperCollins Publishers, 2001). Because the marriage relationship serves as the child's "blueprint for intimacy," couples need to discover how they have been impacted by the relationship of their parents and what they, in turn, are communicating to their children. Each chapter of this book discusses and gives clear examples of an aspect of healthy intimacy ("Establishing the Priority of the Marriage," "Teaching the Value of Interdependence," "Instilling the Importance of Mutual Respect," "Maintaining Trust in Word and Deed," "Negotiating Differences Constructively," "Understanding the Long-Term Effects of Conflict," "Emphasizing the Positives," and "Building a Better Marriage." Questions at the end of each chapter encourage couples to reflect on their own relationships and to move toward healthier patterns both for their own happiness and for that of their children. This would be an excellent resource for a nine-week group study for young parents or a helpful gift for individuals or couples.

***What Your Mother Couldn't Tell You and Your Father Didn't Know: Advanced Relationship Skills for Better Communication and Lasting Intimacy***, by John Gray, Ph.D. (New York: HarperCollins Publishers, Inc., 1994). The author shows how men and women, by understanding differences in male and female development, can relate more effectively to each other and build a passionate, enduring relationship.

***Why Marriages Succeed or Fail: What You Can Learn from the Breakthrough Research to Make Your Marriage Last***, by John Gottman, Ph.D. with Nan Silver (New York: Simon & Schuster, 1994). The author presents four strategies for breaking cycles of negativity and maintaining a lasting, healthy marriage: calming yourself so that you are not overwhelmed by flooding emotions; speaking and listening nondefensively; validating each other as well as your relationship; and overlearning these principles so that the new skills become automatic and can be used under stress.

***Why Mars and Venus Collide: Improving Relationship by Understanding How Men and Women Cope Differently With Stress***, by John Gray, Ph.D. (New York: Harper, 2008). The author expands on male/female differences, drawing on brain scan research to clarify how men and women react differently to stress and often misunderstand each other. He offers clear, concrete steps to prevent and heal the conflicts that arise from such misunderstandings.

***Why Talking is Not Enough: Eight Loving Actions that Will Transform Your Marriage*** by Susan Page (San Francisco: Jossey-Bass, A. Wiley Imprint, 2006). The author encourages individuals and couples to treat their relationships as spiritual disciplines, practicing acceptance, compassion, restraint, and kindness. By focusing on loving each other, in a spirit of good will, couples can build a true spiritual partnership. The author's insights and "experiments" can be utilized by both or by just one party in the relationship.

### **Communication and Conflict Management**

***\*Anger: Handling a Powerful Emotion in a Healthy Way***, by Gary Chapman (Chicago: Northfield Publishing, 2007). The author states his belief that God designed human anger to motivate us to take action against injustice or wrongdoing. However, we often cause harm to others and ourselves by reacting without thinking through what has happened and how best to

address our grievances – real or perceived. He offers a process for owning our anger and processing the situation in order to choose constructive, not destructive action. A study guide at the end provides suggestions for thirteen sessions.

***Talking and Listening Together: Couple Communication I***, by Sherod Miller, Ph.D., Phyllis A. Miller, Ph.D., Elam W. Nunnally, Ph.D., and Daniel B. Wackman, Ph.D. (Littleton, Colorado: Interpersonal Communication Programs, Inc., 1991). ***Love and Anger in Marriage***, by David Mace (Grand Rapids, Michigan: Zondervan Publishing House, 1982). Couples can learn to accept anger as a normal function of a relationship, to communicate without attacking each other, and to work together for positive solutions to whatever produces the anger in the first place. [Available at [www.bettermarriages.org](http://www.bettermarriages.org)]

***The Dance of Anger: A Woman's Guide to Changing the Patterns of Intimate Relationships*** by Harriet Goldhor Lerner, Ph.D. (New York: Harper & Row, Publishers, 1997). “Close relationships are akin to circular dances, in which the behavior of each partner provokes and maintains the behavior of the other.” (p. 12) This book helps the reader clarify her feelings, learn to communicate them effectively, and interrupt negative patterns in relationships, not only with her husband, but also with children, parents, and others.

***The Five Languages of Apology***, by Gary Chapman and Jennifer Thomas (Chicago: Northfield Publishing, 2006). The author identifies five languages of apology: Expressing Regret, Accepting Responsibility, Making Restitution, Genuinely Repenting, and Requesting Forgiveness. By understanding and using the Apology Language or Languages that are most important to each other, couples can more effectively repair and heal their relationship.

***The Surprising Purpose of Anger. Beyond Anger Management: Finding the Gift***, by Marshall B. Rosenberg, Ph.D (Encinitas, CA: PuddleDancer Press, 2005. Rosenberg, developer of the Nonviolent Communication program ([www.nonviolentcommunication.com](http://www.nonviolentcommunication.com) ), challenges us to think of anger as a gift, pointing us to unmet needs, but subverted by the judgments we make about others. He describes how to create strategies focused on meeting needs and to find solutions instead of just reacting.

***You Just Don't Understand: Women and Men in Conversation***, by Deborah Tannen, Ph.D. (New York, Ballentine Books, 1990). The author analyzes how boys and girls develop different perspectives and communication styles because of differences in how they are raised. By trying to see things from the other's perspective, rather than reacting negatively, men and women can prevent these differences from undermining their relationships.
